Chairman's Statement

Phil Wrigley

The retail environment in which we operate remains highly competitive, however, Majestic traded in line with our expectations and we increased market share over the period by 0.1% to 4.3%. Total Group revenues at £133.8m were up £3.6m on the previous first half and UK like for like sales grew 2.8%.

Majestic Wine has a strong and differentiated model and we remain committed to delivering an exceptional experience for our customers. As previously announced the current financial year is characterised by the Group developing and investing in market and customer insight, better infrastructure and the latest technologies necessary to secure our future growth. The cost of these investments, coupled with difficult trading at Lay & Wheeler around the weak Bordeaux 2013 vintage, has seen the Group's profit before tax for the six month period ended 29 September 2014 decline to £8.5m against £9.5m for the first half of the previous financial year.

During the period we invested in analysing the rich transactional data that we hold to help us understand better how customers interact with us across our entire multichannel offering. By combining this information with newly commissioned customer and market research we have identified opportunities for us to further develop our proposition and better target our audience. We are investing in our teams, our stores and customer facing technologies to deliver these opportunities.

We also successfully relocated both our central support office and distribution centre to more modern and larger facilities. Both of these were necessary to support future growth. The lease term on the old central support office was coming to an end and we took this opportunity to purchase a long leasehold on attractive terms and locate all our teams into one, modern facility. The previous distribution centre was operating at full capacity and the new facility is large enough to handle our expected future volume growth.

The Board believes that these investments in market and customer insight, better infrastructure and latest technologies will drive future value for the business and our shareholders albeit they impact our reported profit in the short term.

The Board is proposing an interim dividend of 4.2p per share which is in line with last year. The dividend will be paid on 9 January 2015 to shareholders on the register at the close of business on 12 December 2014.

...the current financial year is characterised by the Group developing and investing in market and customer insight, better infrastructure and the latest technologies necessary to secure our future growth.

Business Review

Steve Lewis

Majestic has a compelling proposition with a differentiated model, strong customer service ethos and a clear strategy to deliver growth.

Steve Lewis
Chief Executive

Majestic Wine

Profit before interest and tax decreased by £0.7m to £7.7m as a result of the investments made in the period to support our future growth. Sales were up 5.7% to £124.9m with like for like sales increasing by 2.8%. The number of customers on our database who have purchased in the last twelve months grew by 1.9% to 643,000. The average spend per transaction at our stores has risen £3 to £130 and the average bottle price of still wine purchased at Majestic is £8.02 up from £7.71 last year.

Multichannel

We have merged multiple data sources to create a single view of our customers, reflecting both on-line and in-store purchases. This has enabled us to successfully implement a programme of segmented customer email communications. We are currently investing to grow our in-house multichannel team which will enable us greater flexibility to deliver rapid developments to our customer proposition. We have seen good growth in online sales, up 12.3% on the same period last year and they now represent 10.8% of total UK retail sales.

Customer Relationship Management (CRM)

We have appointed a multichannel customer relationship management agency with a demonstrable track record of utilising data to enhance and personalise communications. We have successfully executed the first component of our multichannel CRM strategy by segmenting our database to deliver better targeted customer communications. Since the end of the reporting period we have launched a welcome programme that is targeted to increase the proportion of new customers who return for future visits.

Commercial

Total sales to business customers grew by 4.9% to £26.8m and now represent 21.5% of total UK sales. We have a regional sales team whose role is to secure restaurant, gastro pub and hotel business with all subsequent logistics handled by the nearest Majestic store. Additionally in London we have a dedicated office and depot near King's Cross that sells to larger business customers in the City and West End. In order to capitalise on the significant growth opportunity from this channel we have further increased the size of our Commercial sales team.

New Stores

During the half year we opened in Leighton Buzzard, Hexham, Loughton and Addlestone. Since the end of the period we have opened in Tiverton and Wrexham bringing the total number of stores trading to 210. We expect to open a further three new stores before Christmas. We are currently conducting a comprehensive revalidation of the locations and total footprint required to service our targeted segment of the UK wine market.

Fine Wine

Sales of still wine priced at £20 per bottle and above grew by 22.0% to £9.0m following a continued programme to rationalise the range in store with a focus on well-known fine wine brands. We have sourced an exciting parcel of interesting wines for the peak Christmas trading period from Lay & Wheeler, our fine wine merchant.

Lay & Wheeler

Lay & Wheeler is our fine wine specialist with particular expertise in the fields of en primeur sales, cellarage and broking of customer reserves. Over the Summer we experienced a disappointing Bordeaux 2013 campaign. The vintage was good but not great and sales were down across the industry. This had further impacts on ancillary trading and broking of older vintages. Profit before interest and tax for the period was £127k compared with £575k in the previous first half. We have increased the frequency of diversified offers, such as the recent successful launch of Penfolds Grange 2010. Since the end of the reporting period we have re-launched our fine wine subscription club rebranded as Cellar Circle which offers members exclusive benefits.

Majestic Wine Calais

This business operates from two locations in Calais selling to UK consumers wishing to take advantage of the much lower rate of alcohol duty in France. Profit before interest and tax for the period was £738k, up from £660k in the first half of the previous year. We have recently simplified our pricing structure with clear messages highlighting to customers where they can make substantial savings on the UK market price. Customers are encouraged to order through our well-established Click and Collect proposition, which accounts for 45% of sales.

Investing for the future

Majestic has a compelling proposition with a differentiated model, strong customer service ethos and a clear strategy to deliver growth. The 2015 financial year is one of investing to put in place the building blocks to deliver future growth and shareholder value and we are progressing to plan.

Notes to the Unaudited Group Interim Financial Statements

1. General information

Majestic Wine PLC is a public limited company ("Company") incorporated in the United Kingdom under the Companies Act 2006 (registration number 2281640). The Company is domiciled in the United Kingdom and its registered address is Majestic House, The Belfry, Colonial Way, Watford, WD24 4WH. The Company's Ordinary Shares are traded on the Alternative Investment Market ("AIM"). Copies of the Interim Report are being sent to shareholders. Further copies of the Interim Report and Annual Report and Accounts may be obtained from the address above.

The Group's principal activity is the retailing of wines, beers and spirits.

2. Basis of preparation

The interim financial statements of the Group for the 26 weeks ended 29 September 2014, which are unaudited, have been prepared in accordance with the accounting policies set out in the annual report and accounts for the 52 weeks ended 31 March 2014.

The Board is currently of the opinion that the Group's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group is able to operate within its current uncommitted borrowing facilities. The Board is satisfied that the Group has adequate financial resources to continue to operate for the foreseeable future and is financially sound. For this reason, the going concern basis is considered appropriate for the preparation of financial statements.

The financial information contained in the interim report does not constitute statutory accounts as defined in Section 434 of the Companies Act 2006. The financial information for the full preceding year is based on the statutory accounts for the 52 weeks ended 31 March 2014. The report of the auditors, Ernst & Young LLP, on those financial statements was unqualified, did not contain an emphasis of matter paragraph and did not contain any statement under Section 498(2) or (3) of the Companies Act 2006. These accounts have been delivered to the Registrar of Companies.

As permitted, this interim report has been prepared in accordance with UK listing rules and not in accordance with IAS 34 "Interim Financial Reporting" – therefore it is not fully in compliance with IFRS.

The interim financial statements are presented in sterling and all values are rounded to the nearest thousand pounds (£000) except when otherwise indicated.

Notes to the Unaudited Group Interim Financial Statements

3. Segment reporting

The Group's operations are organised into three distinct business units each operating in a separate segment of the overall wine market. Majestic Wine Warehouses is a UK based wine retailer, Lay & Wheeler is a specialist in the fine wine market and Majestic Wine Calais operates retail units in northern France servicing the UK cross-channel market.

No operating segments have been aggregated to form the above reportable segments. Management monitors the operating results of the businesses separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated on both sales growth and profit before interest.

In the information provided to the chief operating decision maker, the underlying performance of the Lay & Wheeler operating segment is evaluated and measured based on revenue and profit being recognised on orders, cash receipts and payments from en primeur campaigns. Management reviews the business on this alternative basis as resources utilised in generating these sales are expensed as incurred. This differs from the revenue recognition policy required under IAS 18 where revenue is recognised on delivery which may be up to two years later. As a result a reconciling item is presented between the total operating segments revenue and results and the IFRS statutory measure.

Financing (including finance costs and finance revenue) and income taxes are managed at a Group basis and are not allocated to operating segments. Inter-segment transactions are conducted on an arm's length basis in a manner similar to transactions with third parties.

	26 weeks ended 29.09.14 £000	26 weeks ended 30.09.13 £000	52 weeks ended 31.03.14 £000

Eliminated	(2,456)	(2,421)	(2,448)
Total group assets	159,345	152,901	155,241

4. Taxation

Taxation for the 26 weeks to 29 September 2014 has been calculated by applying the estimated tax rate for the financial year ending 31 March 2015 adjusted for the reduction in the rate of corporation tax to 21% from 23%, except that deferred tax assets relating to share based payments have been recalculated to reflect the change in the number of options outstanding and movement in the share price.

5. Earnings per share

Basic earnings per share is calculated on profit for the period attributable to equity shareholders of £6,444,000 (2013: £7,253,000) apportioned over the weighted average number of Ordinary Shares that were in issue for the period: 65,604,842 (2013: 65,136,848). The calculation of diluted earnings per share is in accordance with IAS 33 – Earnings Per Share. The weighted average number of Ordinary Shares in issue has been adjusted to take account of the effect of all dilutive potential Ordinary Shares. The number of shares used in the calculation was 66,107,413 (2013: 65,769,559).

Notes to the Unaudited Group Interim Financial Statements

6. Dividend

A dividend of 11.8p net per share was paid to shareholders on 15 August 2014. An interim dividend of 4.2p per share will be paid on 9 January 2015 to shareholders on the register at the close of business on 12 December 2014.

7. En Primeur

En primeur refers to the process of purchasing wines early before they are bottled and released onto the market. This method of purchasing gives the consumer the opportunity to secure wines that may be in limited quantity and very difficult to acquire after release. Receipts and payments for these wines may be up to two years before the wines are delivered to customers. Payments to suppliers are treated as trade receivables and receipts from customers treated as deferred income until the wines are delivered.

a) Analysis of en primeur balances

	29.09.14 £000	30.09.13 £000	31.03.14 £000
